Contributors

Juan A. B. Belt is director of Chemonics International, an international development consulting company, and is former director of the Office of Infrastructure and Engineering at the U.S. Agency for International Development and has worked for the Inter-American Development Bank and the World Bank.

Jonathan Benjamin-Alvarado is a professor of political science at the University of Nebraska-Omaha and the assistant director of the Office of Latino/Latin American Studies. He is also senior research associate of the Center for International Trade and Security at the University of Georgia.

Amy Myers Jaffe is the Wallace S. Wilson Fellow in Energy Studies, James A Baker III Institute for Public Policy, Rice University, and served as a member of the reconstruction and economy working group of the Baker/Hamilton Iraq Study Group and as project director for the Baker Institute/Council on Foreign Relations task force on Strategic Energy Policy.

Jorge R. Piñón is an international energy consultant and visiting research fellow with Florida International University’s Cuban Research Institute. He was president of Amoco Oil Latin America based in Mexico City and general manager of BP Europe’s Western Mediterranean Supply and Logistics organization based in Madrid.

Ronald Soligo is a Rice Scholar at the James A. Baker III Institute for Public Policy, Rice University. He is currently working on the potential for ethanol exports from Caribbean countries.
